TABLE _____

SBU / FUNCTION _____

DATE _____

KPI Heatmap

For each cell: write the KPI you currently watch (top), and the KPI you wish you watched (bottom). The gap between the two is the conversation.

STRATEGIC BUSINESS UNIT	FINANCIAL	RISK	CUSTOMER	OPERATIONAL	PEOPLE
	NIM, ROE, cost-to-income, fee mix, ...	NPL ratio, fraud rate, AML alert ba...	Cross-sell index, digital adoption,...	Throughput, app uptime, claim cycle...	Voluntary attrition, productivity, ...

GKMS / GK One GK Money Services / GK One <i>Money Services & Digital</i>	CURRENTLY WATCH 	CURRENTLY WATCH 	CURRENTLY WATCH 	CURRENTLY WATCH 	CURRENTLY WATCH
	WISH WE WATCHED 	WISH WE WATCHED 	WISH WE WATCHED 	WISH WE WATCHED 	WISH WE WATCHED
GK Capital GK Capital <i>Investments & Asset Management</i>	CURRENTLY WATCH 	CURRENTLY WATCH 	CURRENTLY WATCH 	CURRENTLY WATCH 	CURRENTLY WATCH
	WISH WE WATCHED 	WISH WE WATCHED 	WISH WE WATCHED 	WISH WE WATCHED 	WISH WE WATCHED

The gap is the conversation.

Use these prompts after you complete the grid. Bring the strongest one to the table debrief.

1 Where is YOUR widest gap?

Which single cell on your grid shows the biggest distance between what you watch and what you wish you watched? Why?

2 What's blocking the wished KPI?

Pick one "wish we watched" KPI. Is the blocker data availability, definitional ambiguity, system capability, or organizational will?

3 Which "currently watched" KPI would you drop?

Be honest: which KPI in your "currently watch" column has low decision value? What would you stop reporting?

4 Cross-SBU comparison at the table

Compare your row to a colleague from a different SBU. Where do you DISAGREE on what matters? That disagreement is data.

5 The 90-day question

Of the KPIs in your "wish" column, which ONE could realistically be in production within 90 days? Who would need to do what?

BRING TO SESSION 3 PLEDGE

One KPI I will start asking my team about — starting Monday:
